

From: 2016 MPA Program NASPAA Accreditation Report

GRADUATION DATA

10. Below, using the ARY-5 cohort, indicate the cohort's initial enrollment numbers, how many of those enrolled graduated within the program design length, and within 150% and 200% of program design length. Note that the numbers in each successive column are cumulative, meaning that the number of students in the column for 200% of degree length should include the numbers of students from the 150% column, plus those that graduates within 150-200% of program length. For example, if 15 student initially enrolled, 10 graduated in 100%, 2 graduated in 150% and 1 graduated in 200% you would enter: 15; 10; 12; 13. NOT 15; 10; 2; 1. Programs with multiple campuses or modalities should upload a supplemental table that breaks this information down by campus or modality.

	Initially Enrolled	Graduated 100% of Degree Program Length	Graduated 150% of Degree Program Length	Graduated 200% of Degree Program Length
Total Number of Students in the ARY-5 Cohort	57	21	37	42
